The period of scholarship will differ as follows depending on the student category as accepted by Japanese universities.

(In either case, the above-mentioned term of scholarship includes a 6-month Japanese language training period for grantees who require such training). In case of arrival in Japan other than those periods specified above, MEXT will decide such cases separately on special basis.

(Plus a 6-month Japanese language training period for the grantees who need such training.)
- (3) The extension of scholarship period: If a grantee desires to proceed to a regular graduate course for a degree from a Research Student (non-degree) course, or to a doctoral course from a master's course or a professional graduate course, he/she may have the term of his/her scholarship extended upon successful examination by MEXT provided that he/she has outstanding academic achievement that meets certain criteria. However, note the following:

- (1) The Embassy of Japan in Thailand will conduct a primary (preliminary) screening of applicants by means of submitted application documents, written examinations and interviews.
- (2) Written examinations will be English, Mathematics, Chemistry, Physics, Biology and Japanese language tests.

Note 1: The result of the Japanese language examination will be used as reference data for placement at a university and for Japanese-language education to be provided upon the applicant's arrival in Japan.

Note 2: In particular, if an applicant with limited proficiency in Japanese desires to pursue studies in fields such as Japanese linguistics, Japanese literature, Japanese history, or Japanese law —fields that require sufficient knowledge of the Japanese language — he/she will not be selected as a grantee unless there are exceptional circumstances.

- (3) The following policy will apply to each stage of screening:
 - ① Application documents: Must show that the applicant's academic achievement at the university he/she last graduated from equaled or exceeded the minimum specified level, and state the applicant's desired research program in a detailed and concrete manner.
 - ② Written examination: Must show that the applicant obtained scores that cleared the fixed cut-off level in both English or Japanese.
 - ③ Interview: Must reveal that the applicant has a clear sense of purpose relating to his/her study in Japan and has gathered information about Japanese universities. The interview must also reveal that the applicant has sufficient English or Japanese language ability to communicate with his/her advisor in Japan. If the applicant desires to study a subject that requires advanced Japanese language proficiency, the interview must show that the applicant has a considerable degree of Japanese language proficiency.
- (4) Results of the primary screening will be notified to the applicants on the date separately designated by the Embassy of Japan in Thailand.
- (5) Each person who has passed this primary screening is required to contact directly the Japanese university of his/her choice in order to obtain admission as a regular student for a degree or as a Research Student (non-regular student) in a graduate course, or a letter of provisional acceptance as a research student (hereinafter referred to as "Admission") by the 31th of August. In order to obtain the Admission, candidates can gain information regarding the contact office for international students of each university, websites of universities and researchers, etc. from the Japanese diplomatic mission. Candidates are not allowed to contact Japanese universities after the 1st of September.
- (6) Each candidate must submit to the university of his/her choice a set of the documents that are submitted to and returned by the Japanese diplomatic mission (application, academic transcript of the university attended, research (study) program plan, etc.) all with a confirmation seal of the Embassy of Japan in Thailand affixed, and a certificate of the primary selection issued by the Embassy of Japan in Thailand. Additional documents may have to be submitted upon request of the university.
- (7) MEXT will conduct a secondary screening based on the results of the primary screening conducted by the Embassy of Japan in Thailand, and select applicants as MEXT scholarship grantees whose placement at a university of their choice has been decided.

Note 1: Applicants who have passed the primary screening at a Japanese diplomatic mission are not necessarily accepted as MEXT scholarship grantees.

Note 2: Applicants who were not accepted by any universities which the applicants named in their Placement Preference Form will not be selected as MEXT scholarship grantees.

- (1) Placement of a grantee at a university will be made following a relevant request which was made to the university by the applicant who has passed the primary screening and obtained Admission. MEXT will request the universities named in the Placement Preference Form to accept the grantee, and place him/her there upon its approval in principal (candidate who has received admission to a regular course for a degree will be placed directly in such course without needing to pass through a Research Student(non-degree) period).

If a candidate wants to enter either a public or a private university other than national university, the grantee's preference specified in the Placement Preference Form may not be met due to budgetary reasons concerning school fees, etc. Moreover, any objection by a candidate to the decision will not be allowed.

In case a candidate is not able to request Admission to any universities due to bad communication circumstances, MEXT will discuss with the universities which a candidate named in the Placement Preference Form. However the candidate may not be accepted nor may he/she selected by the universities and them by MEXT if his/her research program plan is vague, unclear, or insufficient in content, or his/her desired major field presents difficulty from the perspective of research guidance in Japan. In this case, any objection by a candidate to the decision will not be allowed.

- (2) Research guidance such as lectures, experiments and practical training at universities is basically conducted in Japanese.
- (3) If a grantee is judged to be insufficient in Japanese language proficiencies by the receiving university, usually he/she will be placed in a Japanese- language training institution designated by the university of placement or MEXT for the first six-month period after his/her arrival in Japan. Upon completion of the language training the grantee will be placed at a university for advanced education. If a grantee has poor achievement in the language training course and is considered unfit for advanced education at the university, scholarship payment will stop. (See 4.(1).)
- (4) If a grantee is deemed by his/her recipient university to be sufficient in Japanese language proficiency for conducting his/her research in Japan, he/she may be placed in the university as Research Student (non-degree) or a graduate student for a degree without going through Japanese-language training.
- (5) If a grantee desires to move on to a regular course for a degree from a Research Student (non-degree) course, or to a doctoral course from a master's course or a professional graduate course, he/she needs to take an entrance examination provided by the relevant university and pass it. To continue receiving the MEXT scholarship after advancing to a higher level, the grantee must undergo another screening examination and be awarded an extension of the scholarship. (See 3.(2).) . A grantee cannot apply for an extension of scholarship term while being enrolled in a Research Student (non-degree) course.
- (6) If a grantee desires to step up to a regular course for a degree from a Research Student non-degree course, in principle, he/she must move on to the graduate school of the university at which he/she is studying as Research Student. If proceeding to the graduate school is deemed to be inappropriate given the grantee's major field or ability, he/she may be allowed to transfer to another graduate school provided that he/she is admitted to enroll in.

Note 1: Under the educational system of Japan, a typical master's course lasts for two years subsequent to graduation from a university (i.e. after completion of a 16-year school curriculum), and a typical doctoral course lasts for three years after completion of a master's course. If a student has completed such two-, or three-year course, obtained necessary credits, and passed the final examination after submitting his/her graduation thesis, he/she will be given relevant degrees.

Note 2: In the fields of medicine, dentistry and veterinary science, and pharmacy which is founded on a 6-year department or faculty, most of the universities offer only 4-year doctoral courses. For admission to such doctoral course an applicant is required to have completed an 18-year school curriculum. If an applicant completed a 16-year school curriculum, he/she is required to have engaged for two or more years in research activities at universities or research institutions subsequent to completion of the 16-year curriculum, and to be deemed by a graduate school in Japan as being academically equal to an applicant who completed an 18-year curriculum.

Note 3: Professional graduate schools were implemented in 2003 designed to develop profound learning and outstanding ability that support professions that require sophisticated expertise. The standard required duration of study is two years. In some fields of study, the duration is less than two years but more than one year. Upon completion of the course a master's degree (specialized occupation) will be conferred.

Among the professional graduate schools are "graduates schools of law." This school requires the standard duration of study of three years. Upon completion of the course a student will be granted the degree of "Doctor of Law (specialized occupation)."

Note 4: Entrance examinations given by a graduate school vary from one university to another. In general, applicants have to take examinations in two foreign languages, his/her major subject, and an essay test.

9. NOTES

- (1) The recipient is advised to learn, before departing for Japan, the Japanese language and to acquire some information about Japanese weather, climate, customs, university education, and conditions in Japan, as well as about the difference between the Japanese legal system and that of his/her home country.
- (2) As the first installment of the scholarship payment cannot be provided immediately upon the recipient's arrival, the recipient should bring approximately US \$2,000 to cover immediate needs after arrival in Japan.
- (3) Recipient must enroll in *Kokumin Kenko Hoken* National Health Insurance upon arrival in Japan.

(4) Accommodations:

① Residence halls for international students provided by universities:

Some universities have residence halls for international students. The recipients enrolled at such universities may reside at these residence halls under certain conditions. However, due to the limited number of rooms, some of these facilities may be unavailable.

② Private boarding houses or apartments:

Those who are unable to find accommodation in the aforementioned facilities may live in regular dormitories of the university or in private boarding houses/apartments. It is difficult for recipients with dependents to find appropriate housing in Japan. The recipient is requested to arrive in Japan alone first to secure housing before having his/her spouse and/or family come to Japan.

- (5) Information regarding the MEXT Scholarship recipient (name, gender, date of birth, nationality, accepting university/graduate school/undergraduate school, field of specialty, period of enrolment, career path after completion of scholarship, contact information [address, telephone number, e-mail address]) may be shared with other relevant government organizations for the purpose of utilization for overseas students programs implemented by the Japanese Government (support during period of study in Japan, follow-up survey, improvement of the overseas student system).

Information in regards to the recipient other than date of birth and contact information may be made public in materials produced by the Japanese Government as publicity information for promoting the acceptance of overseas students in order to introduce the activities of past recipients in countries around the world after their study in Japan.

- (6) The English texts attached to the Application Guideline and the Application Form are for convenience only. English expressions do not change the Japanese content, so if you have any questions about the content of the written text, you should inquire at the Japanese diplomatic mission.
- (7) In addition to the regulations stipulated in this guideline, those that are necessary to implement the Japanese Government Scholarship are determined by the Japanese government.
- (8) More detailed information on this scholarship program is available at the Japanese diplomatic missions.
